A

A waves, transpulmonary propagation of, in aortic stenosis and myocardial disease, 699
Abscess, myocardial, obstructing right ventricular outflow tract, 738
Abstracts of papers
  Seventeenth Annual Scientific Session, American College of Cardiology, 91, 612
  Young Investigators' Awards Competition, 450
Acetyl strophanthidin, infusion of, directly into coronary artery, 213
Action potential, ventricular, and change in cycle length, 525
Adams-Stokes syndrome and cardiac pacemakers, 55
American College of Cardiology
  Awards at annual meeting, 456, 759
  Board of Governors, 145, 600
  Burch, G. E., president, 1968-1969, 454
  Circuit program in cardiopulmonary disease, 612
  Committees 1968–1969, 601
  Election of officers, 456
  Faces and places in the news, 916
  Grant to foreign scholars-trainees program, 304
  Group travel plan, 770
  Martz, B. L., named president elect, 611
  New members, 464, 768
  Obituaries, 613, 917

    in Richmond, Va., 462
    in San Francisco, 303
    in Seattle, 607, 768
    in Washington, D. C., 459
  President, 1968–1969, announcement of, 454
  President's Page
    Clinical Logic, 758
    Education for All Physicians, 455
    Report to the College, 277
  Program, Seventeenth Annual Scientific Session, 122, 284
  Seventeenth Annual Scientific Session
    Abstracts of papers 91, 613
    Program, 122, 284
    Scenes from, 762
  Teaching film announced, 304
  Young Investigators' Awards Competition, abstracts of papers, 450
American Journal of Cardiology
  Tenth anniversary, 1–4
  Editorial board members announced, 611
Amyl nitrite inhalation in hypertrophic subaortic stenosis, 681
Anatomy
  of differential cyanosis, 72
  of single atrium, 639
  of single ventricle, 813
  of tetralogy of Fallot and pulmonary stenosis with intact interventricular septum, 773
Aneurysm
  of membranous septum resembling anomalies of tricuspid valve, 661
  ventricular, phonocardiogram and apex cardiogram in, 467
Angina pectoris, propranolol and isosorbide dinitrate in, 44
Angiocardiogram
  in cardiac tumors, 344

Angiocardiogram (continued)
in right atrial myxoma, 367
in single ventricle, 813
in supravalvular tricuspid stenosis, 81
Angiosarcoma of heart, 413
Angiotensin II, pressor response in hypertension, 705
Anniversary, tenth, *American Journal of Cardiology*, 1–4
Annulus, tricuspid, hypoplasia of, in pulmonary atresia with intact ventricular septum, 23
Anomalous inferior vena cava with azygos continuation, high (sinus venosus) atrial septal defect and alterations of sinoatrial rhythm, 575
Antiarrhythmic agents (see *specific agent*)
Antibodies, viral, in primary myocardial disease, 6
Antibody technics, immunofluorescent, in diphtheritic myocarditis, 261
Antifibrillatory effects of bretylium, 504
Aorta
coarctation of, and kinking, 442
with severe mitral insufficiency, 190
hypoplastic, and transposition of the great vessels, 797
obstruction of, and differential cyanosis, 72
Aortic arch, abnormalities of, and supravalvular tricuspid stenosis, 81
Aortic regurgitation, immediate hemodynamic effects of, 478
Aortic stenosis, transpulmonary propagation of *a* waves in, 699
Apexcardiogram in ventricular aneurysm, 467
Argentaffinosis (see *Carcinoid syndrome*)
Arrhythmias (see also *Tachycardia*)
atrial
effect of SU 13197 on, 544
induced by hyperventilation, 436
bretylium in, 530
due to cardiac tumors, 307
in disease of the heart valves, 901
lactic dehydrogenase isoenzymes after electroshock in, 496
management in coronary care unit, 252
monitoring of, during open heart surgery by myocardial electrogram, 714
paroxysmal atrial, induced by hyperventilation, 436
platinum-tipped electrode catheter in, 894
Tris in, 38
Arteriography, coronary, devices for improvement of cineradiographic system in, 549
Atherosclerotic renovascular disease, 60
Atresia (see *specific type*)
Atrial arrhythmias
effect of SU 13197 on, 544
paroxysmal, induced by hyperventilation, 436
Atrial extrasystoles, ventriculophasic, and atrioventricular block, 593
Atrial fibrillation, electrical induction of, 731
Atrial myxoma, 367
Atrial septal defect
high (sinus venosus), and anomalous inferior vena cava, 575
Atrial septal defect (continued)
P wave changes in, 628
Atrial systole, contribution of, to ventricular function, 518
Atrial tachycardia converted to atrial fibrillation, 731
Atrioventricular block
chronic postoperative, in children, 185
complete, and ventriculophasic atrial extrasystoles, 593
Atrium, right, overloading of, P wave changes in, 628
Atrium, single, diagnostic features of, 639
Auscultation of heart sounds and murmurs, 722

B

Beta adrenergic blockade in ischemic heart disease, 846
Beta adrenergic blocking agents (see *specific agent*)
Bethesda conference of the Committee on Standardized Terminology, 273
Body surface potentials, distribution of, 860
Book reviews
Auscultation of the Heart (Ravin), 148
Cardiac Pacemakers (Siddons and Sowton), 147
Cowdry's Arteriosclerosis. A Survey of the Problem (Blumenthal, editor), 146
Diagnosis and Treatment of Shock (Weil and Shubin), 149
Exploracion cardiovascular y Fonomecanocardiografia Clinica (Fishleder), 146
Hearts—Their Long Follow-up (White and Donovan), 149
Principles of Resuscitation (Feldman and Ellis), 147
Proceedings of the Third International Conference on Hyperbaric Medicine (Brown and Cox, editors), 146
Resuscitation (Brooks) 148
Support of the Failing Circulation. The Use of a Pump Oxygenator in Clinical Cardiac Failure (Kennedy), 148
The Lung Circulation (Aviado), 147
Books received, 305
Bretylium tosylate
in ventricular fibrillation, 530
quantitatively compared with other antifibrillatory drugs, 496
Bundle branch block, right, vectorcardiogram in, 785

C

Caisson disease, 258
Carcinoid syndrome, 376

Cardiac glycosides (see *specific drugs* and *Digitalis drugs*)
Cardiac hemorrhage in acute leukemia, 388
Cardiac pacemakers
  implanted radiofrequency, in study of excitation and conduction, 746
  in chronic postoperative heart block in children, 188
  long-term follow-up study of, 55
Cardiac pacing
  atrial, compared with sequential atrioventricular, 207
  sequential atrioventricular, in normal subjects, 207
  transvenous, and synchronous diaphragmatic contractions, 88
  ventricular, compared with sequential atrioventricular, 207
Cardiac tumors (see also *specific tumors*)
  clinical aspects of, 329
  differential diagnosis of, 344
  diagnostic criteria for, 307
  in infants, 363
  pathology of, 315
  radiologic aspects of, 344
  spectrum of, 307
  surgical management of, 357
  symposium on, 307–387
Cardiac vein thrombosis in hemorrhagic myocardial infarction, 269
Cardiomyopathy, idiopathic, nonobstructive, in children, 153
Cardiovascular research, cultivation of prognosis in, 753
Cardioversion and digitalis, effect of changes in serum potassium concentration on, 513
Carditis, rheumatic, 572
Catheter, platinum-tipped, in diagnosis of arrhythmias, 894
Cineradiographic system in coronary arteriography, devices for improvement of, 549
Clinical logic, 758
Coarctation of aorta
  and differential cyanosis, 72
  and kinking, 442
  and severe mitral insufficiency, 190
College news (see *American College of Cardiology*)
Computer
  analysis of electrocardiograms by, 687
  in medicine, 280
Conduction disturbance
  in pectus excavatum and straight back, 446
  in pulmonary stenosis in children, 669
Conduction, supernormal, produced by artificial subthreshold stimulation, 746
Conduction system in congenital heart disease, 619
Congenital heart disease (see also *specific lesions*)
  conduction system in, 619
  deductive electrocardiography in, 617
  P wave in, 628
  symposium on electrocardiography in, 617–660; 773–845
Coronary arteriography, devices for improvement of cineradiographic system in, 549
Coronary care unit and acute myocardial infarction, 252
Coronary flow in acute pulmonary embolism, 32
Coronary heart disease, propranolol in, 11
Cyanosis, differential, anatomic basis for, 72
Cyst of mitral valve, 428

D

Deductive electrocardiography in congenital heart disease, 617
Dextrocardia, vectorcardiogram in, 830
Dextroposition, vectorcardiogram in, 830
Dextroversion, vectorcardiogram in, 830
Defibrillation, effect of bretylium on, 504
Diaphragmatic contractions, synchronous, and transvenous cardiac pacing, 88
Digitalis drugs
  in mitral stenosis and sinus rhythm, 241
  infusion of, directly into coronary artery, 213
  relation to cardioversion affected by changes in serum potassium concentration, 513
Digitalization of myocardium by direct coronary artery drug administration, 213
Dilantin (see *Diphenylhydantoin*)
Diphenylhydantoin
  antifibrillatory effects of, compared with bretylium, 504
  cardiac effects of, in man, 20
Diphtheritic myocarditis, 261
Ductus arteriosus, patent, in differential cyanosis, 72

Acetyl strophanthidin
  administered directly into left main coronary artery, 667
  and response to electrical stimulation, 251
Age-related changes in pulse wave contours, 691
Alcoholism
  and nonobstructive primary myocardial disease, 523
  and primary cardiomyopathy associated with sickle cell trait, 532
American College of Cardiology
  AMA screening examinations, 146
  Bethesda Conference report on cardiac and other organ transplantation, 896
  Eighteenth Annual Scientific Session
    announcement of, 148, 294, 446
    committees and chairmen for, 754
    plans for, 607
    program highlights, 915
    room reservation application, 759, 925
  film review: *The Work of the Heart*, 756
  group travel program, 756
  new members elected to the college, 293, 754
  new position for Dr. Dimond, announcement of, 291
  obituaries

    cardiac nursing symposium, 142
    cardiology for the consultant, 923
    circulatory assistance in heart failure and shock by drugs and devices, 923
    clinical aspects of pulmonary heart disease, 921
    colloquium in cardiology—2: advanced concepts in the clinical pharmacology of cardiac drugs, 753
    coronary care unit revisited—1968, 289
    coronary care units and myocardial infarction, 288
    coronary heart disease: present status, 290
    diagnosis and treatment of congenital and acquired heart disease, 145
    electrical control of cardiac function, 443
    exercise in coronary heart disease, 141
    hypertension, 606
  postgraduate education programs
    instrumental acquisition of cardiological data, 140
    new computer-assisted concepts in electro- and vectorcardiography, 752
    pharmacologic basis of cardiovascular therapy, 143
    C. Sidney Burwell memorial symposium, 920
    the failing circulation, 443
    the present status of heart transplantation, artificial heart and circulatory assists, 752
    vectorcardiography—a workshop, 444
    venous disease and embolism, 143
  premiere of College-sponsored film, 291
  President's Page
    Geriatric cardiology, 749
    The eighteenth annual meeting in New York City, 913
    The history, physical examination and time, 440
    There is not too much to learn, 137; Reply, 748
  The Problem of Chest Pain, film premiere, 146
Amines, sympathomimetic, in heart failure, 177
Aneurysm
  left ventricular "fibrous body," caused by aspergillus endocarditis, 281
  of aorta, dissecting, and "subclavian steal" syndrome, 436
Angiocardiography
  and percutaneous cardiac catheterization in infants and children, 572
  in demonstration of coronary ostial stenosis due to syphilis, 122
  left ventricular, ventricular septal perforation after, 885
  use of stiff catheter producing traumatic right coronary artery occlusion, 119, 747
Antiarrhythmic agents (*see specific agent*)
Aorta
  dissecting aneurysm of, "subclavian steal" syndrome masquerading as, 436
Aortic stenosis
  muscular, in an elderly patient, 126
Aortic valve
  homograft replacement of, 195
  prosthesis, ball degeneration in, 614
Arrhythmias (*see also specific type*)
  after repair of atrial septal defect, 636
  and sudden death in babies, 457, 479
  chronic intractable supraventricular, propranolol in, 711
  hyperbaric oxygenation in, 738
  induced by digitalis, 151
  transvenous pacing in control of, 874

Arterial flow, Doppler ultrasonic flowmeter in telemetry of, 75
Artery
  brachial, pulse waves of, analyzed by digital computer, 691
  carotid, pulse waves of, analyzed by digital computer, 691
  circumflex coronary, effects of anesthesia on occlusion of, 559
  coronary
    disease
      and automobile driving, 856
      and concept of cardiac failure, 43
      studied by selective coronary dye-dilution curves, 844
    occlusion
      acute, anesthesia in, 559
      produced by stiff catheter during angiocardiography, 119
    epicardial, and pulmonary artery, fistula between, 893
  internal mammary
    cineangiographic studies after bilateral implantation of, 235
    implantation of right, 218
    myocardial revascularization after bilateral implantation of, 227
  left main coronary, administration of acetyl strophanthidin directly in, 667
  pulmonary, and epicardial arteries, fistula between, 893
Aspergillus endocarditis
  of mitral prosthesis, 277
  producing left ventricular "fibrous body" aneurysm, 281
Atrial fibrillation
  and hemodynamic and metabolic responses to exercise, 543
  propranolol in, 711
  right ventricular pacing in hemodynamic evaluation of, 568
Atrial rhythm, left, analyzed by intra-atrial electrocardiogram and vectorcardiogram, 645
Atrial septal defect
  absence of, in partial anomalous pulmonary venous connection, 242
  functional closure of, 888
  in discordant situs of thoracic and abdominal viscera, 111
  postoperative conduction disturbances in, 636
Atrial systole and fourth heart sound, 609
Atrial tachyarrhythmias and transvenous ventricular pacing, 874
Atrial tachycardia, paroxysmal, propranolol in, 711
Atrioventricular block after repair of atrial septal defect, 636
Auscultation of fourth heart sound, 609
Automobile driving, electrocardiographic changes during, in patients with coronary artery disease, 856

Beta adrenergic receptor blockade, myocardial uptake of free fatty acids and carbohydrates after, 370
Beta adrenergic receptor blocking agent (*see specific agents*)
Beta adrenergic stimulation in congestive heart failure, 7
Bethesda Conference report on cardiac and other organ transplantation in the setting of transplant science as a national effort, 896
Blood flow, systemic, estimation of by indicator-dilution technic in presence of central shunts, 672
Blood pressure
  arterial, computer measurement of, 685
  effect of propranolol on, 657
Blood transfusion
  and cytomegalovirus infection, 624
  and postperfusion nonthrombocytopenic purpura, 631
Blood volume, venous, after intracardiac surgery, 621
Brachial and carotid arterial pulse waves analyzed by digital computer, 691
Bundle branch block, right, after repair of atrial septal defect, 636

Caisson disease and coal mining, 863
Carbohydrates
  in hyperlipoproteinemia, 576
  myocardial uptake of, after beta adrenergic blockade, 370
Cardiac catheterization
  and administration of glucagon, 706
  and right ventricular pacing in hemodynamic evaluation of atrial fibrillation, 568
  computer analysis of data, 696
  percutaneous, and angiocardiography in infants and children, 572
Cardiac edema (*see Edema, cardiac*)
Cardiac failure (*see also Congestive heart failure*)
  and coronary artery disease, 43
  what is it?, 2
Cardiac glycosides (*see Digitalis and Digitalization*)
Cardiac hypertrophy and myocardial ultrastructure, 319
Cardiac output, measured by indicator-dilution technic, 672
Cardiologist and learning, 137, 748
Cardiomyopathy, primary, and sickle cell trait, 532
Cardiopulmonary bypass affecting patients with congestive heart failure, 183
Cardiovascular effects of glucagon in man, 706
Carotid and brachial arterial pulse waves analyzed by digital computer, 691
Catecholamines
  circulatory, in congestive heart failure, 7
  sympathomimetic, in heart failure, 177
Catheter
  Gensini, safeguards in use of, 747
  in percutaneous angiocardiography, 572

Catheter
stiff, producing traumatic right coronary artery occlusion during left ventricular angiocardiography, 119
transvenous pacing, migration and successful removal of, 880
Catheterization, cardiac (*see Cardiac catheterization*)
Cineangiography
in acute coronary artery occlusion, 559
in study of postoperative volume flows after bilateral internal mammary artery implantation, 235
Circumflex coronary artery occlusion and effects of anesthesia, 559
Clinical pharmacology
of diuretic drugs in treatment of cardiac edema, 168
of furosemide and ethacrynic acid, 162
Cobalt additives in beer and primary myocardial disease, 516
Computer
digital, in indirect measurement of arterial blood pressure, 685
in analysis of cardiac catheterization data, 696
in analysis of carotid and brachial pulse waves, 691
Conduction disturbances
and sudden death in babies, 457, 479
in atrial septal defect, 636
Congestive heart failure (*see also Symposium on Congestive Heart Failure*)
effects of intracardiac operations on, 183
endocrine factors in, 35
ethacrynic acid and furosemide in, 162
ethacrynic acid in, 260
fundamental mechanisms in, 7
prevention of, 190
sympathomimetic amines in, 177
Coronary arterial system in revascularization of right ventricular myocardium by right internal mammary artery implantation, 218
Coronary artery disease
and automobile driving, 856
and concept of cardiac failure, 43
studied by selective coronary dye-dilution curves, 844
Coronary artery occlusion
acute, hemodynamic effects of, modified by anesthesia, 559
produced by use of stiff catheter during angiocardiography, 119
Coronary care unit
controversy on, 597
terror in, 746
Coronary dye-dilution curves, selective, in normal subjects and patients with coronary disease, 844
Coronary heart disease, myocardial hypoxia and anaerobic metabolism in, 507
Coronary ostial stenosis, syphilitic, demonstrated by angiography, 122
Crib death (*see Symposium on Sudden Death in Babies*)
Cytomegalovirus infection after open heart surgery, 624
Cytoplasmic granulations, abnormal, in diagnosis of mucopolysaccharidosis, 133

Death, sudden, in babies (*see Symposium on Sudden Death in Babies*)
Diet in hyperlipoproteinemia, 576
Digitalis
and sympathomimetic amines in congestive heart failure, 177
in prevention of heart failure, 190
new facts about, 151
toxicity produced by ethacrynic acid therapy, 260
Digitalization
direct myocardial, 667
electrical stimulation to estimate degree of, 251
Discordant situs of thoracic and abdominal viscera, 111
Diuretic drugs
clinical pharmacology of furosemide and ethacrynic acid, 162
in cardiac edema, 168
DNA in compensatory hyperfunction and hypertrophy of the heart, 337
Dopamine in congestive heart failure, 177
Doppler ultrasonic flowmeter in telemetry of arterial flow in man, 75

Ebstein's anomaly of the tricuspid valve, original description of, 867
Edema, cardiac
